Aquaculture Fish Health SOP

This printable aquaculture fish health sop helps fish farmers, pond owners and managers set routine fish health checks and responses. Follow the steps in order.

Farm / unit: _____ Date: _____ By: _____

1. Observe fish at each feeding
2. Record behavior and appetite
3. Check water quality
4. Remove dead fish promptly
5. Sample fish when concerns arise
6. Call a fish health professional
7. Isolate affected stock if practical
8. Record all treatments

YOUR NOTES

TIP Name one person responsible for daily fish health checks and keep a backup contact on file.
