Fish Disease Identification Guide

This printable fish disease identification guide helps fish farmers, pond owners and managers work through observations when fish look unwell. Follow the steps in order.

Farm / unit: _____ Date: _____ By: _____

1. Note which pond or tank is affected
2. Record fish behavior changes
3. Check skin, fins and gills
4. Test water quality
5. Write down recent changes
6. Photograph visible signs
7. Isolate affected fish if practical
8. Contact a fish health professional

YOUR NOTES

TIP Only a trained fish health professional can confirm a diagnosis, so use this guide to organize your notes.
