Beef Cattle | WORKSHEET

Beef Ration Balancing Worksheet

A beef ration balancing worksheet for listing animal groups, feeds on hand and what each feed supplies, so a ration can be built and checked with a nutritionist.

Farm / unit: _____ Date: _____ By: _____

Animal group and class _____

Average body weight _____

Record production stage _____

Feeds available on hand _____

Forage test results _____

Supplement or mineral planned _____

Amount fed per head _____

Notes from nutritionist review _____

NOTES / CALCULATIONS

TIP Use lab results for forage rather than book values when you can, and have your extension nutritionist check the final ration.
