Calving Difficulty Assessment Form

A calving difficulty assessment form used to note how hard a delivery was, what help was needed and how the cow and calf recovered, for later culling and sire decisions.

Farm / unit: _____ Date: _____ By: _____

Cow ID and age group _____

Record sire used _____

Calf presentation at delivery _____

Level of assistance needed _____

Equipment or help used _____

Condition of calf at birth _____

Condition of cow after calving _____

Follow-up needed per veterinarian _____

NOTES / CALCULATIONS

TIP Score every assisted birth the same way each year so sire and cow comparisons stay fair, and call your veterinarian for hard cases.
