Beef Cattle | GUIDE

Parasite Control Program

A parasite control program guide that lays out steps for planning internal and external parasite management in beef cattle with a veterinarian. Print it and keep it handy where the work gets done.

Farm / unit: _____ Date: _____ By: _____

1. Learn which parasites affect your area
2. Ask your veterinarian for a plan
3. Monitor with fecal checks as advised
4. Choose products by label and need
5. Rotate pastures where practical
6. Keep treatment records
7. Watch for poor response to treatment
8. Review the program each year

YOUR NOTES

TIP Use products only as labeled and ask your veterinarian before relying on one product, since resistance can develop.
