Pasture Water Development Guide

A pasture water development guide that outlines the planning steps for adding or improving stock water sources for grazing cattle. Print it and keep it handy where the work gets done.

Farm / unit: _____ Date: _____ By: _____

1. Map existing water sources
2. Note pastures without water
3. Choose a source such as well, pond or pipeline
4. Plan tank type and placement
5. Protect banks and wet areas
6. Plan freeze protection
7. Check permits and rules
8. Ask NRCS about technical help

YOUR NOTES

TIP Contact your local NRCS office early, since planning help and permits may affect how and where you build.
