Beef Cattle | WORKSHEET

# Weaning Rate Calculator

A weaning rate calculator worksheet for comparing calves weaned to cows exposed, so producers can judge herd reproductive performance. Print it and keep it handy where the work gets done.

Farm / unit: _____ Date: _____ By: _____

Cows exposed to the bull _____

Cows confirmed pregnant _____

Calves born alive _____

Calves lost before weaning _____

Record calves weaned _____

Weaning rate result _____

Possible causes of losses _____

Changes to try next year _____

**NOTES / CALCULATIONS**

**TIP** Use the same group of cows every year when calculating, and check your result against similar herds through extension.
