Beginning Farmer Crop Planning Worksheet

A worksheet for beginning farmers planning which crops to grow. It records crop choices, fields, timing, and markets so the season has a clear plan.

Farm / unit: _____ Date: _____ By: _____

Crop name and variety _____

Field or bed assigned _____

Planting window _____

Seed source and lot _____

Expected harvest period _____

Labor needs _____

Intended market _____

Inputs required _____

Notes from last season _____

NOTES / CALCULATIONS

TIP Choose crops that match your market first, then work backward to planting and field space.
