Beginning Farmer Disease Management Plan

A disease management plan template for beginning farmers. It organizes crop or herd disease concerns, prevention steps, monitoring, and response actions in one plan. Keep it with your farm records.

Farm / unit: _____ Date: _____ By: _____

Crop or animal group

Diseases of concern

Prevention practices

Monitoring routine

Sanitation steps

Treatment per label or veterinarian

Isolation or removal steps

Records to keep

Advisor contact

TIP Ask your Extension office or veterinarian to review the plan for your area.
