Beginning Farmer Irrigation Plan

An irrigation plan template for beginning farmers. It outlines water sources, systems, schedules, and records so water use is planned and tracked. Use it alongside advice from local advisors.

Farm / unit: _____ Date: _____ By: _____

Fields to irrigate

Water source and rights

Irrigation system type

Equipment condition

Scheduling approach

Soil moisture monitoring

Energy and pump needs

Water use records

Plan review date

TIP Confirm water source and rights with your state water agency before building a system.
