Farm Fencing Planning Guide

A guide to planning farm fencing for new farms. It covers matching fence types to animals, mapping lines, and gathering materials and help before spending money on materials.

Farm / unit: _____ Date: _____ By: _____

1. List animals or crops to protect
2. Map the boundary and cross fences
3. Choose fence type for each area
4. Plan gates and access points
5. Check boundary line agreements
6. Make a materials list
7. Decide who builds it
8. Plan for ongoing repair

YOUR NOTES

TIP Walk the proposed fence line before buying anything, noting slopes, wet spots, and obstacles.
