Farm Infrastructure Planning Worksheet

A worksheet for planning farm infrastructure such as buildings, fences, water, and roads. Beginning farmers use it to list needs and set priorities before spending.

Farm / unit: _____ Date: _____ By: _____

Barns and storage needs _____

Fencing needs _____

Water supply needs _____

Power and utility needs _____

Access roads and gates _____

Handling and loading areas _____

Waste and manure storage _____

Priority order of projects _____

Estimated budget range _____

NOTES / CALCULATIONS

TIP List every need first, then rank them so the most important work gets funded first.
