Compost Production Guide

This Compost Production Guide helps growers make compost. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. Pick a site with drainage
2. Gather feedstocks
3. Balance carbon and nitrogen sources
4. Build the pile or windrow
5. Turn and monitor temperature
6. Keep moisture right
7. Cure the finished compost
8. Test before use

YOUR NOTES

TIP Keep a pile log and test finished compost before field use.
