Drip Irrigation for Crops Guide

This Drip Irrigation for Crops Guide helps growers set up and run drip irrigation. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. Map fields and water source
2. Choose filtration for your water
3. Lay out mainline and laterals
4. Set pressure regulation per the manufacturer
5. Check emitter spacing and flow
6. Plan scheduling by crop stage
7. Flush lines and check for leaks
8. Record runtime and maintenance

YOUR NOTES

TIP Flush lines regularly and follow the manufacturer's pressure guidance for your tubing.
