Herbicide Resistance Management Guide

This Herbicide Resistance Management Guide helps growers slow herbicide resistance on your farm. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. List weeds with suspected resistance
2. Record herbicide modes of action used
3. Rotate and combine modes of action
4. Use pre-emergence residual products
5. Scout after application for escapes
6. Control escapes before they set seed
7. Clean equipment between fields
8. Record all applications by field

YOUR NOTES

TIP Check the product label for the mode of action group and keep records field by field.
