Organic Crop Production Guide

This Organic Crop Production Guide helps growers plan organic crop production steps. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. Review the organic standards with your certifier
2. Plan field history and buffer needs
3. Plan rotation and soil building
4. Choose approved seed and inputs
5. Plan weed control without synthetic herbicides
6. Plan pest and disease prevention
7. Keep audit trail records
8. Plan harvest, storage and handling separation

YOUR NOTES

TIP Talk with your certifier before buying inputs and check every product against the approved list.
