Precision Ag Crop Data Management Guide

This Precision Ag Crop Data Management Guide helps growers organize and protect field data from your equipment. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. List equipment and monitors that log data
2. Set a consistent field naming system
3. Back up data after each operation
4. Record software and file formats
5. Note who owns and shares your data
6. Review data sharing agreements
7. Archive each season by field
8. Clean up and check data before analysis

YOUR NOTES

TIP Back up monitor data the same day you collect it, and keep one copy off the farm.
