Slake Test Procedure Guide

This Slake Test Procedure Guide helps growers perform a slake test. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. Collect intact soil clumps
2. Let samples air dry
3. Prepare clear containers of water
4. Place clumps in water gently
5. Watch how clumps break down
6. Compare fields and practices
7. Photograph each test
8. Record notes and results

YOUR NOTES

TIP Test clumps from different fields side by side and take photos.
