# Soil pH Management Guide

This Soil pH Management Guide helps growers manage soil pH. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. Test soil pH by zone
2. Know the crop needs
3. Review buffer pH or lab advice
4. Choose a liming or acidifying material
5. Plan timing and incorporation
6. Retest after application
7. Watch for nutrient availability
8. Record rate applied and results

**YOUR NOTES**

**TIP** Follow your lab report and retest after applying amendments.
