Strip-Till Setup Guide

This Strip-Till Setup Guide helps growers set up strip-till equipment and fields. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. Check toolbar, shank and coulter condition
2. Set strip depth per the operator's manual
3. Match strip spacing to the planter rows
4. Plan fertilizer placement in the strip
5. Check GPS or guidance setup
6. Plan timing: fall or spring
7. Check soil conditions before running
8. Record settings and strip quality

YOUR NOTES

TIP Walk the field after the first pass and check strip quality before running the whole field.
