# Wheat Insect Pest Guide

This Wheat Insect Pest Guide helps growers track insects found in wheat fields. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. Note growth stage while scouting
2. Check leaves, stems and heads for feeding
3. Identify pests and their life stages
4. Record where in the field pests were found
5. Look for natural enemies present
6. Compare counts to local action guidelines
7. Note recent weather and field edges
8. Plan follow-up scouting date

## YOUR NOTES

**TIP** Use a sweep net or counting method recommended by your extension office and record results each visit.
