# Zinc Deficiency Identification

This Zinc Deficiency Identification helps growers spot zinc deficiency. Fill it in by hand and keep it with your farm records for later seasons.

Farm / unit: _____ Date: _____ By: _____

1. Note crop and growth stage
2. Describe leaf banding or stunting
3. Check for patchy field pattern
4. Check soil pH and phosphorus levels
5. Compare to extension photos
6. Take soil and tissue samples
7. Plan correction
8. Record response

**YOUR NOTES**

**TIP** Pair tissue sampling with soil tests before applying zinc.
