Dairy | WORKSHEET

Dairy Cost of Production Calculator

A dairy cost of production calculator worksheet for farms to list feed, labor, overhead and other costs so milk production costs can be figured for review.

Farm / unit: _____ Date: _____ By: _____

Period covered _____

Milk produced _____

Feed costs _____

Labor costs _____

Veterinary and breeding costs _____

Utilities and fuel _____

Repairs and supplies _____

Interest and overhead _____

Calculated cost per unit of milk _____

NOTES / CALCULATIONS

TIP Use the same time period for costs and milk so your figures compare fairly, and review them with your accountant.
