Dairy Ration Balancing Worksheet

A dairy ration balancing worksheet for producers and nutritionists to list animal group details, feed ingredients and the checks done when balancing a ration.

Farm / unit: _____ Date: _____ By: _____

Group and stage of lactation _____

Average body weight noted _____

Milk production level _____

Forage types and test dates _____

Grain and byproducts available _____

Mineral and additive plan _____

Calculated ration summary _____

Cost comparison notes _____

Nutritionist review _____

NOTES / CALCULATIONS

TIP Use the worksheet to gather inputs before meeting with your nutritionist so ration changes rest on current data.
