Dairy | WORKSHEET

Hock Lesion Assessment Form

A hock lesion assessment form for dairy farms to record hock condition across a group of cows as a check on stall comfort, bedding and cow flow.

Farm / unit: _____ Date: _____ By: _____

Farm and pen name _____

Date and assessor _____

Number of cows examined _____

Cows with no hair loss _____

Cows with hair loss only _____

Cows with swelling _____

Cows with open lesions _____

Likely stall or bedding factor _____

Changes planned _____

NOTES / CALCULATIONS

TIP Score a similar group each time and look at stall surface, bedding depth and stall design when lesions show up.
