Horse Quarantine Protocol

This printable Horse Quarantine Protocol helps horse owners and barn managers set up and run isolation for a new or sick horse. Print a fresh copy as needed and keep completed pages with your other barn records.

Farm / unit: _____ Date: _____ By: _____

1. Choose an isolated stall or paddock
2. Set up separate tools and buckets
3. Handle healthy horses first
4. Change boots and wash hands
5. Record temperature as your vet directs
6. Watch appetite and manure
7. Call your veterinarian with changes
8. Clean and disinfect per label
9. Decide with vet when isolation ends

YOUR NOTES

TIP Write down who enters the quarantine area so exposure can be traced if illness appears.
