Farm Fiber Processing Business Guide

A guide to starting a fiber processing business with farm wool, fleece or similar fibers. Helps owners think through equipment, markets and quality before investing.

Farm / unit: _____ Date: _____ By: _____

1. Identify fiber types and supply
2. Decide which steps to offer
3. Plan space and equipment
4. Plan cleaning and waste handling
5. Set quality and testing standards
6. Define customers and markets
7. Set prices and minimum orders
8. Check licenses and zoning
9. Test a small batch first

YOUR NOTES

TIP Test a small run with a trusted customer before buying large equipment, and ask your county about waste and zoning rules.
