Farm Food Safety Plan Template

A section outline for a written food safety plan on a farm that grows or processes food. Helps owners record hazards, practices, training and corrective actions.

Farm / unit: _____ Date: _____ By: _____

Farm and product description

Food safety team and duties

Hazards for each product

Worker health and hygiene

Water use and testing

Soil amendments and manure use

Harvest, packing and cleaning steps

Traceability and recall contacts

Corrective actions and review

TIP Base the plan on what actually happens on your farm, and ask your state agency which rules apply to your products.
