Farm Meat Processing Business Plan

A business plan template for a farm meat processing or direct meat sales business. Helps owners work through inspection, facilities, markets and money. Fill it in by hand or on screen and file it when finished.

Farm / unit: _____ Date: _____ By: _____

Business concept and products

Processing rules that apply

Facility and equipment plan

Inspection and licensing contacts

Animal supply and scheduling

Food safety plan

Market and customers

Staffing and training

Startup and operating budget

Risks and backup plans

TIP Speak with your state and federal meat inspection offices early, since rules decide what you can sell and where.
