Anhydrous Ammonia Safety Guide

An anhydrous ammonia safety guide with ordered steps for handling tanks, hoses, and fittings, using protective gear, and responding to leaks or exposure.

Farm / unit: _____ Date: _____ By: _____

1. Read the product label and guide
2. Train every handler
3. Wear goggles and gloves
4. Keep water nearby
5. Inspect hoses and valves
6. Park tanks away from people
7. Work upwind of the tank
8. Move away if a leak starts
9. Flush exposed skin or eyes and call for help

YOUR NOTES

TIP Keep a water supply for flushing within reach, and confirm training and transport rules with your state agency.
