Dairy Evacuation Plan

A dairy evacuation plan template for milk producers to plan cow movement, milking, feed, destinations, and notifications so herds and milk handling are managed in an emergency.

Farm / unit: _____ Date: _____ By: _____

Herd size and groups

Cow movement priorities

Milking plan during the event

Trucks and trailers

Destination and host farms

Feed and water supply

Milk hauler and plant contacts

Veterinarian and officials

Records and identification

Return and restart steps

TIP Contact your milk handler and veterinarian ahead of time so there is a plan for milk pickup and animal care.
