Dust Mask Selection Guide

A dust mask selection guide with ordered steps for choosing the right mask or respirator for grain dust, mold, lime, and pesticide tasks on the farm.

Farm / unit: _____ Date: _____ By: _____

1. Name the dust or vapor hazard
2. Read the product label
3. Check safety data sheet advice
4. Pick a rated respirator
5. Confirm it matches the hazard
6. Check fit on your face
7. Seal check each time
8. Replace filters when needed
9. Ask a professional if unsure

YOUR NOTES

TIP A simple dust mask does not protect against vapors or every dust, so confirm the correct rating for each task.
