Farm Hand Protection Guide

A farm hand protection guide with ordered steps for matching gloves to tasks such as fencing, chemicals, welding, and livestock, and for keeping gloves in good shape.

Farm / unit: _____ Date: _____ By: _____

1. List tasks that risk the hands
2. Match glove type to each task
3. Use chemical resistant gloves for sprays
4. Use heat rated gloves for welding
5. Skip gloves near rotating parts
6. Check fit and dexterity
7. Inspect for holes before use
8. Wash hands after removal
9. Replace worn gloves

YOUR NOTES

TIP Read the product label for glove type on chemical tasks, and never wear loose gloves near moving machinery.
