# Farm Heat Illness Prevention Plan

A farm heat illness prevention plan template for owners to set up water, shade, rest, acclimatization, and warning-sign training for workers in hot conditions.

Farm / unit: _____ Date: _____ By: _____

## Plan owner and contacts

## Water access arrangements

## Shade and cooling areas

## Rest break approach

## New and returning worker acclimatization

## Signs of heat illness

## Emergency response steps

## Worker training method

## Weather monitoring plan

**TIP** Check your state rules for any required heat plan, and review the plan with every worker before hot weather starts.
