Grain Entrapment Prevention Guide

A grain entrapment prevention guide with ordered steps for workers and families, covering shutoffs, lockout, safety lines, observers, and rescue calls around bins and wagons.

Farm / unit: _____ Date: _____ By: _____

1. Stay out of bins when possible
2. Lock out all augers and unloaders
3. Never walk on moving grain
4. Use a harness and safety line
5. Station an observer outside
6. Break up crusted grain from outside
7. Ask the local fire department about rescue
8. Keep children away from grain
9. Call emergency services right away

YOUR NOTES

TIP Share this guide with your local fire department so they know where your bins are and how to reach them.
