Natural Gas Safety Guide

A natural gas safety guide with ordered steps for farm owners to find shutoffs, recognize leaks, avoid ignition, and respond to line damage or odor around buildings and digs.

Farm / unit: _____ Date: _____ By: _____

1. Locate meter and main shutoff
2. Recognize the odor and sounds
3. Call before digging
4. Leave the area if you smell gas
5. Avoid switches and flames
6. Call the gas utility and emergency services
7. Do not return until cleared
8. Keep shutoff tools available
9. Have appliances serviced

YOUR NOTES

TIP Call your gas utility before any digging, and keep the emergency number posted near the phone.
