Drought Water Management Plan

A template for a drought water management plan for livestock. Owners use it to prepare steps for dry years when supplies shrink.

Farm / unit: _____ Date: _____ By: _____

Water sources and their reliability

Livestock numbers and needs

Drought triggers to watch

Steps to cut water use

Alternative sources and hauling

Herd reduction options

Assistance programs to contact

Plan review date

TIP Watch the U.S. Drought Monitor and act early, and ask FSA about drought assistance.
