Feed & Nutrition | WORKSHEET

Feed Conversion Ratio Worksheet

A worksheet for working out feed conversion ratio, the feed eaten compared to animal weight gained. Feeders use it to judge how well a group turns feed into gain.

Farm / unit: _____ Date: _____ By: _____

Animal group and species _____

Start date and starting weights _____

End date and ending weights _____

Total feed offered, per your records _____

Feed refused or wasted _____

Total weight gained _____

Ratio worked out and how _____

Notes on weather, health or feed changes _____

NOTES / CALCULATIONS

TIP Weigh animals the same time of day under the same conditions so your comparisons mean something.
