Feed & Nutrition | WORKSHEET

Feed Cost Calculator

A worksheet for working out what your feed costs per head, per day and per unit of gain. Useful for farmers comparing feeds and planning purchases.

Farm / unit: _____ Date: _____ By: _____

Feed name and purchase source _____

Cost paid per load or bag _____

Amount delivered, per the ticket _____

Moisture or dry matter adjustment _____

Animals fed from this lot _____

Days the lot lasted _____

Cost per head per day _____

Cost compared to alternatives _____

NOTES / CALCULATIONS

TIP Compare feeds on a dry matter basis so wet and dry products are judged fairly.
