Feed Inventory Turnover Worksheet

A worksheet for tracking how fast feed inventory turns over. Managers use it to spot slow moving stock and avoid spoilage or running out.

Farm / unit: _____ Date: _____ By: _____

Feed item _____

Average amount on hand _____

Amount used in the period _____

Number of deliveries _____

Days of stock held _____

Turnover worked out _____

Stale or slow stock found _____

Ordering change to try _____

NOTES / CALCULATIONS

TIP Aim to use older feed first and adjust order sizes so stock does not sit for long periods.
