# Feed Mill Emergency Plan

A template for a feed mill emergency plan. Owners use it to record who does what and where to go in a fire, spill, injury or severe weather event.

Farm / unit: _____ Date: _____ By: _____

## Site map with exits and assembly points

## Emergency contact numbers

## Roles for each worker

## Fire response steps

## Injury and first aid response

## Spill or release response

## Severe weather steps

## Utilities shutoff locations

## Drills and plan review schedule

**TIP** Practice the plan with all workers, and invite your local fire department to review it.
