Feed Nutrition App Setup Guide

A guide to setting up a feed nutrition app on a phone or tablet. Producers use it to enter animals, feeds and records.

Farm / unit: _____ Date: _____ By: _____

1. Choose an app and read reviews
2. Create an account and secure it
3. Enter your farm details
4. Add animal groups
5. Add feeds and lab results
6. Set reminders and units
7. Test with one group first
8. Back up your data

YOUR NOTES

TIP Check app privacy settings before entering farm records, and keep a paper backup too.
