Feed & Nutrition | WORKSHEET

Feed Storage Loss Calculator

A worksheet for working out how much feed is lost in storage. Producers use it to compare stored amounts to amounts fed out and find where loss occurs.

Farm / unit: _____ Date: _____ By: _____

Feed type and storage method _____

Amount put into storage _____

Date stored _____

Amount taken out or fed _____

Amount spoiled or discarded _____

Loss worked out as a share _____

Likely cause of loss _____

Change to reduce loss _____

NOTES / CALCULATIONS

TIP Use scale weights or a reliable estimating method so your loss figures stay consistent from year to year.
