Livestock Water System Map

A template for mapping a livestock water system. Owners use it to sketch sources, lines, valves, tanks and drinkers for staff and repairs.

Farm / unit: _____ Date: _____ By: _____

Property outline and north arrow

Wells, ponds and springs

Pipelines and valve locations

Tanks and drinkers

Pumps and power sources

Shutoff points marked

Pastures served

Legend and date drawn

TIP Walk the system with a GPS or phone map and update the sketch after every change.
