Feed & Nutrition | GUIDE

Supplement Selection Guide

A guide for choosing a supplement for your livestock. Producers use it to decide whether a supplement is needed and which type fits their feed and animals.

Farm / unit: _____ Date: _____ By: _____

1. Define the goal for supplementing
2. Review forage or ration analysis
3. Identify the gap in the diet
4. List supplement types that fill the gap
5. Read the product label and directions
6. Compare cost per unit of nutrient
7. Check species safety and cautions
8. Ask a nutritionist before buying
9. Track results after feeding starts

YOUR NOTES

TIP Never feed a product made for another species without checking with your veterinarian or nutritionist.
