Feed & Nutrition | WORKSHEET

Winter Feed Planning Worksheet

A worksheet for planning winter feed supplies. Cattle, sheep, goat and horse owners use it to estimate how much feed they need to get animals through the cold months.

Farm / unit: _____ Date: _____ By: _____

Animals to be fed and class _____

Expected start and end of feeding _____

Daily feed need per animal group _____

Hay and stored feed on hand _____

Quality of stored feed per tests _____

Gap to be filled _____

Sources and suppliers to contact _____

Backup plan for a long winter _____

NOTES / CALCULATIONS

TIP Order early when you can, and test your hay so you know what supplement is really needed.
