Forage Crop Insurance Guide

A guide to forage crop insurance basics, pointing producers to program types and what records to gather before talking with an agent. Work through the steps in order, and keep notes on what you decide for future reference.

Farm / unit: _____ Date: _____ By: _____

1. Learn what forage insurance exists
2. List the crops and acres to cover
3. Gather production records
4. Find a licensed agent
5. Ask about covered causes of loss
6. Ask how claims work
7. Review paperwork carefully
8. Keep copies of all documents

YOUR NOTES

TIP Confirm coverage details with a licensed agent and the Risk Management Agency, not from a handout.
