Forage Mycotoxin Testing Log

A log of mycotoxin tests on forage, listing lots, tests and results, so producers can document feed safety checks. Use it through the season so patterns and problems are easy to spot when you review it later.

Farm / unit: _____ Date: _____ By: _____

Date	Lot	Forage type	Test used	Result	Action taken

TIP Send samples to a qualified lab and talk to your veterinarian about what any result means for your animals.
