Grazing Paddock Layout Worksheet

A worksheet for planning paddock layout, including shape, water access, lanes and fence lines, for graziers subdividing a pasture. Work through it top to bottom, using your own records, and revisit it when conditions change.

Farm / unit: _____ Date: _____ By: _____

Pasture name and total area _____

Soil and forage types present _____

Water source locations _____

Planned paddock count _____

Lane and gate placement _____

Fence type and route _____

Shade and shelter spots _____

Notes on future changes _____

NOTES / CALCULATIONS

TIP Walk the field with a flag set before you build anything, so lanes and water points fit the land.
