Grazing Wedge Worksheet

A worksheet for planning a grazing wedge, showing how much forage each paddock holds so rotation decisions can be made ahead of the herd. Work through it top to bottom, using your own records, and revisit it when conditions change.

Farm / unit: _____ Date: _____ By: _____

Paddock names in rotation order _____

Date last grazed _____

Days of regrowth _____

Forage height or yield _____

Forage quality notes _____

Paddock ready or not _____

Surplus or shortage _____

Action to take _____

NOTES / CALCULATIONS

TIP Update the wedge every week in the growing season so you see shortages before the animals do.
